Thousands die in quake aftermath

KILLER WAVES

- World's most powerful earthquake in 40 years, off Indonesia, registers 8.9 on the Richter scale.
- More than 4000 people killed in Sri Lanka, Indonesia, India, Malaysia and Thailand.
- Thousands missing, many of them fishermen at sea.
- In Sri Lanka, more than 2100 killed and a million affected by the tidal surge.
- More than 100 divers missing in southern Thailand, including 70 in the famed Emeral Cave.
